NUTICE TO MARINERS, No. 312,

CHINA SEA

NEWCHWANG DISTRICT. PORT ARTHUR LIGHTHOUSE,

NOTICE is hereby given that the Port Arthur Light was re-established and its character changed on the 20th October,

The illuminating apparatus is now of the Sixth Order Dioptrie, occulting, showing-

a fixed light veried by two colleges every 20 seconds, thus :-

Light Ecitose 2

The Light shows while between N. 13 E. and N. 55° W.; red inshore of N. 13° E. and between N. 55° W. and N. 81° W.; and white between N. 81° W. and S. 40° W. The bearings are magnetic and from

The Light is elevated 87 feet above the level of the sea, and in clear weather the red light should be visible at a distance of 5 nautical miles, and the white light at 8 nautical miles, where not obscured by the -The light-building, which is ? feet high

and painted white, stands close to the eastern side of the old-lighthouse, which is painted in white and black hor zontal

The Keepers' dwelling and the boundary rall are white. Approximate position :-

Latitude 38' 47', 26" N. Longitude ...121° 16' 26" E. Note. - The Port Arthur Lighthouse is in the Newchwang Cuatoms District, but it is under the control of the Chefoc Customs. By Order of the Inspector General of

THE Hongkong correspondent of the N. Daily News has been writing about the Governor's unfortunate telegram! Chater's promise. He says - The Press are demanding to know by what right the senior unofficial member pledged the Colony to submit to an increase of the rates. I think, before crying out, however, sit would have been more seemly to ask for an explanation. I cannot believe that any unofficial member of Council would on his own responsibility pledge the Colony to submit to an increase in the rates of one imagine, that Mr Chater consulted his | worth reproduction :colleagues, and they agreed to recommend, if necessary, resort to a small increase in Chinese telegrams are often caused by the the taxes rather than see the projects for interreption or fault of the lines between commemorating the Jubiles chraited. So here and Shanghai.

The latest interruption is occurred belar no explanation has been forthcoming, recent Chinking and Changhai since last

THE cosy little premises of the United Services Club, in D'Aguilar Street, have only been opened a little over a week, and yet during the period the membership has incressed from 66 to over a hundred. This is a sufficient justification for the necessity of the Club. The Club was instituted about six months ago by a number of moncommissioned officers of the R.E., and ex-R.E. men, for mutual improvement. Their first rooms were on the upper floor of a house at Bowrington, and they afterwards removed to premises in Queen's Road East, opposite the Royal Naval Club. Al. though the Club was well patronised at these premises, it was decided that it would be more convenient to have premises in a more central position. Accordingly the new premises were secured in D'Aguilar-Street, and these have been comfortably Ms Henry George has been nominated for furnished. The room on the ground floor the post of Mayor of Greater New York. Is arranged as a bar and sitting room, where the members can engage in various games at circular tables, or enjoy a chat with their friends and fellow members. A piano in this room is a source of delectation the 3rd inst., will reach London on or about to musical members, of whom there are many. The upper floor is, furnished as a reading and writing room. The in the practice for the Inter-Port shoot, depicting military and naval scenes, and some water colour sketches by one of the made a score of 99, comprising a post most enthusiastic members. The Club is sible at the 200 yards range, and 30 and under the able management of a representative Committee: Already the premises are found to be somewhat cramped owing to the large increase of the membership, and the Committee will soon have to make

Tax Tientain General Chamber of Commerce has had occasion to remonstrate with the Imperial Chinese Telegraph Administration over the delay of messages between Tientsin and Shanghai. It was stated by the clerks that the line was not in good working order and only ungent messages would be promptly transmitted. Our Tientain contemporary says 'a strong feeling exists that ordinary messages are purposely delayed with the simple object of forcing customers to pay the treble charge for urgent telegrams. From what we know of the Chinese character, we incline to the same opinion as the Tientsiners, and as this is another thatter calling for immediate redress the Chambers of Commerce are afforded another opportunity of proving their worth. Mr.C. S. Wong, the Manager at Tientsin for the Administration, had per cent. What is much more likely is, sent the Tiontsin Chamber a reply that is In reply to your favor that I beg to announce you that the delay of freeign and

THE Hongkong correspondent of the N.-C. Daily News has solved the difficult problem of the defence of Hongkong, but it is doubtful if the parties concerned will be willing to coincide with his views:-Of late there has been a good deal of private discussion and speculation among the residents on the condition of the defences of the Colony and its ability to resist attack. A paper, written probably by a gallant Voluntoor, entitled 'The Back Door,' which has been published by the China Mail, followed by a criticism thereon in the same paper by 'A Free Lance' started the question; it was kept alive during the Volunteer Camp of Exercise, and the Harbour Master has since contributed a useful paper, making some practical suggestions for the employment of naval volunteers as scouts and a flotilia of launches for use in the event of an alarm Of war. The conthern side of the folant in practically defenceless and open to the landing of a foe, and the Kowloon side is pregnable in consequence of the facility with which a hostile fleet could shell the harbour from a position in Mirs Bay. The question of the defence of the southern side of Hongkong has been engaging the attention of the home authorities, and it i stated that they have resolved to erect forts in certain commanding positions, and to provide against the contingency of an attempt by an enemy to land in one of the numerous bays. What is wanted is the rectification of the Colony's frontiers on the Kowloon side and the acquisition of all the islands to the south.

A Honggond correspondent has been writing to the Manchester Guardian on the flotation of the Hongkong Cotton Spinning, Weaving, and Dyeing Co. (Limited). He says :- 'The promoters point to the returns carned by the Jopan mills as evidence of the success that is likely to accrue to the spinning concerns at Shanghai and in Hongkong, but I venture to think the figures published by the Japanese form scarcely reliable data for a forecast of the Shanghai and Hongkong mills. I do not mean to imply that these latter busiheases are not likely to be remunerative but only that the high results given by the Japanese mills are arrived at by methods that will not commend themselves to Europeans. The Japanese dividends average 15 per cent. per annum, but this result is obtained at the expense of the plant, for the maintenance and depreciation of which the Japanese make little, if any allowance. On the other hand, it has to be borne in mind that the Japanese have to purchase a large portion of their raw cotton from THE UHINA CUP.-II starters. China, which charges an export duty, and that when the manufactured article returns to China an import duty has to be paid, and these charges, coupled with freight THE PAGODA CUP. 10 starters. both ways, would seem to give the mille a slight advantage. He concludes ... The success that has signalised the floration of the Hong Kong cotton spinning mills, has already induced other capitalists to turn their attention to the applicat, and I have heard that two other concerns will be placed on the market. The Racing Stakes. -11 starters. at an early date: We are evidently on the verge of a new epoch in the history of Hong-Kong, and the mere demonstration that it is possible to conduct industrial autorprises of this mature in the colony will I have not the alightest doubt, lead to the creation of other industries in which the cheep labour of Chins can be utilized.

THE FOREIGN SETTLEMENTS AT SHANGHAL. THE EXTENSION QUESTION.

Shanghai, Oct. 25. At the present time no question is of greater importance to the residents of Shang hai than the extension of the limits of the Settlement. Much property is now owner by foreigners outside of the limits of the present small Settlement, and this derive the benefits of good roads made by the Municipal Council, of police patrol, and of lighting, without contributing any shar of the regular nunicipal taxes. Neither are the benefits equally distributed, for whereas the residents along the Bubbling Well Road have all the advantages before mentioned, those living the Pooting side, or those living on the outskirts in other portions, have poor roads and lighting and scarcely any police patrol. We are at present in the absurd position of taxing highly all the foreign and Chinese residents of the Settlement, and allowing our wealthy fellow-residents of the Bubbling Well and Point Roads to enjoy the fruit of our labours. We have reason to know that the situation is as obnoxious to many of these residents as to those who are taxpayers, and this is evidenced the fact that many of them are found among the most earnest advocates of an extension which will include them in the burdens of taxation. One of the most cogent arguments for extension found in the injustice of the present system. which has been forced upon the Council by the gradual expansion of the residence an business sections beyond the original naris satisfactory to find that an old hand joint intervention with France and Russia row limits. Although our fellow-residents have been forced to build their houses and establish their mills outside of Munifurisdiction, they have yet continued to be an essential part of our social and business life, and it has only been right that the Council should have done its utmost to furnish them with proper Two years ago, some excitement was protection and Municipal conveniences. While some injustice may have been done in the method of distributing such benefits, Hart in everything bearing upon the the islands in the neighbourhood of Amoy. | vet the aim of the Council has been to do facilities of navigation on the Coast. Mr. | More recently an extensive survey was | its best under the circumstances while all the time aiding and leading in efforts toward extension. Had it been possible to bring the Diplomatic Corps at Peking to see the importance and pressing need of enlargement these instances of inequality of benefits would have been quickly cor-

The great need now is that all nationali ties should act in concert in pushing the request. Shanghai, though nominally called a British Settlement, has long ago ceased to have any national distinction. It has never been a concession north of the Yangkingpang, and all title deeds-are ment, and not in the name of Her Majesty. as in the case of the concessions at some other treaty ports. Only for convenience supposition that the Germans are quietly of reference are the deeds for property registered in the Consulates, and it is not necessary even that they should be registered in the Consulate of the nationality to which the owner belongs. Previously many deeds of British subjects were registered in the American Consulate, translated from the Singrénpue by the N .- and at the present time instances are by no means rare in which the deeds of citizens . The profecture of Funingfu, near or subjects of other countries are registered The Egyptian occupation of Kassala has Frechow, has many dependencies on the in the British Consulate. The Council ususea const which from their situation are ally has one German and one American points of strategic importance to the pro- citizen among its number, and no doubt vincial Governments of Fukien and other nations would be gladly admitted to Chekiang. > A TELEGRAM from Iroland states that it is reported on the highest authority that Baron Edward Gibson Ashbourne, Lord Chancellor of Ireland, will shortly succeed the Earl of Aberdeen" as Governor-General of Canada.

MR Chirol, in his Far Eastern Question, draws attention to a small but characteris telegraphed to the Emperor for instruct tic fact, namely, that the telegraph station tions. And here the affair stands so far as in Peking is situated in the outer native city, the gates of which, like those of the According to a private letter received by outer wall, are closed at sundown, thereby

> MESSRy_ Jardine Matheson and Co's plans for starting spinning factories in Japan, says the Tokyo Asahi, are slowly but surely of the reactionary spirit in educational maturing, and the 'Princely House' will be, as usual, in the van of foreign enterprise when the opportunity arrives for taking advantage of the tradal privileges conferred upon alions by the new treatles.

Tax N. C. Daily News of the 29th Oct. says :- Owing to the rumours that were about the Settlement a few days ago to the Committee at home to aggertain the true PEKING NOTES.

Peking, Oct. 18. I see by last week's issue that you do not need me to tell you that the Hooley-Jameson loan is off. Some maintain it is a case of temporary suspension; others that the whole thing is dead. There is, of course, a vast diversity of opinion too, as to the pre cise why and wherefore of the failure Personally, I fancy the representative of the syndicate took too much for granted. It is conier to carry these matters through in Shanghai than in Peking, whore a spirit of obduracy broads over everything. wish, both on the part of Mr Frisoll and Sheng Taotai, was obviously father to the thought that the business was clinched and it required the matter-of-fact atmosphere of the Capital to clear up various misapprehensions on this point. As fast as one party is flooded others enter the ring however, and loan negotiations still brisk up here. China has to rais money, and she wisely looks with favour able eyes towards England. She is per haps beginning to realize that, though scrip may be made out in another name, it very quickly finds its way to London, on the principle that where the carcus is there will the eagles be gathered together. England is still the hen that lays the golden egg, however much men may profess to hate her noisy cackle.

- The Governor of Shansi seems determined to do the best for the place that he can. He is often memorializing for this change or that, and now I see that he has first obtained the Imperial sanction to transfer a number of officials, well versed in agriculture and mining to his province. is in order, to give the various chief prises in which he is interested the advantage of the best supervision at hi command. The officials so transferred are Ho Yuen-piu, from Kiang-hai Cheng Kuan-ting, from Kinng-wei; Kuci King, from Chekiang; Ting Cheng-mu. from Shan-kang; Tang Chow-chien, from An-hin; and Li Kuang-haiang, Kuang-hung. Three of these gentlemer are expectant Taotais, -- a very harmless i unlucrative profession, by the way, one a prefect, and two magistrates, but they are all credited with possessing valuable information in regard to agriculture and mining, and it is to be hoped they have, spite of the apparent discrepancy of in-

A landslip or earthquake appears to have taken place in the Ping-yao district of Shan-hai in August, as I see the Governor is petitioning for the relief of those who suffered by the collapse of some small hillsin the district. The Governor presumably acts upon the principle 'better late than

An 'English-speaking Society' has just been formed here by some twenty of our more advanced young bloods, and a very promising Society it is. The members are men who have already a very fair grip of the English tongue, and who are clubbing together for their mutual improvement in the command of the language. That such an association should be attempted and voluntarily formed in the capital of the Chinese empire, is a significant and very encouraging circumstance. The spread of English in China within the past year or two has been very marked, and it is satisfactory to note that even the Government is awakening to the desirability of introducing the foreign lingo into the national

Explosions from all sorts and conditions of causes appear to be inseparable from arsenals or camps in this country, and a story now comes to hand of an explosion of guns in the Liangkiang artillery camp, caused by a building being blown down on by the accident.

Three thousand rifles (made in Belguin') and 1,500,000 smokeless cartridges have just been sent by Imperial order, to the General in charge of the frontier force in Kuan hei -P. and I. Times Cor.

> educational circles is a matter of serious consequence. In one sense it is a sign of healthy development, for it is a legitimate result of the nationalization of education effected during the past ten years or so. But we wonder if the tendency is not going too far. Devotion to the Throne and the country may be cultivated more than sufficiently by the study of national history as at present conducted in schools, and there is little necessity to stimulate, or rather pervert, that sentiment by calling in the aid of exclusive reactionary ideas, as seems to be the aim of not a few educationists. We believe in common with Marquis Ito that it is now high time to apply some effective sheek to the growth circles. - Japan Times.

THE growth of a conservative tendency in

DEATH OF MR T. PIELDING M. F. London, Oct. 5. - Mr Thomas Fielding Conservative member of Parliament for the Middleton Division of Lancashire, died suddenly to-day n ar Dunkeld, Scotland. while out shooting. The late Mr Fielding was a great sportsman and exceedingly popular with all sorts and conditions of men in Lancashire. He was a Director of the Lancashire and Yorkshire Railway, and a or 4 inches in diameter. The bullet-is West Riding Yorkshire from 1868 to 1880. He was educated at Wellington College and Trinity College, Cambridge LABOUR TROUBLES IN GREAT BRITAIN.

London, Oct. 9.—There is no indication of an improvement in the Engineering strike and the embitterment of the determined struggle between the employers and the engineers, of whom 70,000 are now idlecontinues with almost a certainty of bringing about a general strike throughout the shipbuilding establishments of the country.

The railroad employees will hold a great conference at Birmingham in a few days, and will formulate demands which the comhanics say it is impossible for them to grant. and in the event of the latter's refusal a general strike of 150,000 failroad workers which will probably mean the idleness of 1,500,000 others, will follow:

The Engineers' Union has issued a manifesto which reveals the fact that its struggle with their employers has relieved the most momentous crisis in the history of trades uniquism in England. The employers maintain the position announced by them a week ago, refusing to most the strikers in confurence, and declining to depart in the slightest degree from the stand they had taken until the mon return to work unconditionally. The manifesto soundly denounces the employe ers' rejection of the overtores of the strikers. Their insistence of the absolute submission of the workmen, the propounce ment declares, means their latent to crush the entire organisation of trades unions in the country. . We appeal to our fellow trade unions generally the manifesto continues, 'to answer the challenge of the federated employers. The Engineers Society has sustained its struggle alone until the present time, but financial aid, is now imporatively necessary.

to the public to subscribe funds to the made any uniustifiable demands. It is and it declares that the men intend to go on as they have gone London, Oct 8.—A despatch to the what the finish will be unless large and inabsolute censations of thip building, in accordance with the Naval programme, and

The manifesto then makes an appeal

WHAT RE-OPENING THE MINTS WOULD MEAN.

Bombay, October 16. currency question with unusual care, ob- that city, which is inspired thereby to projected in a letter which we published youterday to our contention that the re-opening duce the following :of the Indian Mints would have for its im- He finds himself in sorry straits, mediate result a repetition of what happened before, namely, the pouring into the country of the superfluous silver of America He woodd and won too many mates, and other countries. We pointed out that the silver would be converted into rupees in quantities far beyond the require. Too recklessly he dared the fates, ments of India, and the consequent detri- He married in too many States, ment of the currency. Only the closing of | And that's why Nemesis now waits the Mints in 1893 prevented the rupes from falling to ten pence or less, which would have been the ruin of Indian finances. value, or less. That is inevitable when inducements and facilities are given by the Ho had them charged, at highest rates, State to convert into coin of the realm masses of metal once 'precious,' but reduced in value to less than half its former ! He ordered thus, at divers dates. price. The danger is excessively great Pianes, mirror, tote-a-totes, when enormous quantities of metal can be produced and sold at a profit for seven pence, or oven three pence an ounce. Large quantities of silver are extracted from tin and copper cros in England as a by-product, and costing virtually nothing. The re-opening of the Mints in India would re-open half the mines in the United States which were closed down after the legislation of 1893. Under such cir-cumstances India would become the silver sink of the world, and we might at any time within the next two or three years see the rupee at eight-pence or nine-pence. That would shake the credit of the Government of India and the stability of the Empire. Mr Webb maintains with much ingenuity that a country cannot have too much silver or too much coin. He asks quite plausibly is it an advantage or disadvantage to the people of India to have a plentiful supply of good silver or money? The question begs the issue. Silver have closed their Mints against it.

at once if the mints be re-opened. The crucial question is, why did the principal" silver? They did so only and because nations of the world have demonetised it. They took that step because they cessive coinage in a metal which has in large measure ceased to be precious, more and more in the immediate future. Gazette.

BATES.

Bates, or Gates, is under arrest in Chicago charged with bigamy. Seven women A Correspondent who has studied the claim him as husband, says the Tribune of Does Bates. Or Gates, Same Did Gates, Or Bates.

Or Gates. It is a very serious thing to permit the cur-rency of any State to fall to half its original Did Bates, 218 As Gates.

> To Gates. For Bates. And down-town merchants paid the freights Not Bates,

> > Or Gates.

For Bates,

None of your cheap and common skates Is Bates, Or Gates. Tis Brigham Young he emulates, Does Gates.

Or Bates. By potent charms he fascinates All matrimonial candidates. Ho'd marry the whole United States, Would Bates, For Gates.

> THE BOOM IN CANADIAN RAILWAYS.

Vancouver, October 6. The two great Canadian railway systems are just now attracting a good deal of attention in London financial circles. Hapwhich has been steadily falling in value for pily the circumstances of both are apparentthe last quarter of a century, is not good ly more favorable than they have been for silver, in the sense of being a good in. a long time past. The prospects are also. vestment. It is a delusion and a snare, that the improvement both in the business Our correspondent explains the ominous of the Canadian Pacific and the Grand fact that the good price of silver is little Trunk railways, and in their financial posimore than two shillings an ounce very tion is not only likely to be permanent, but simply; the principal nations of the world to increase. The influence which this state of things is likely to exercise will extend be-Now that America, which sought to | youd the two great undertakings and will propitiate its Silver Kings by purchasing have a most favorable effect on Canadian finsilver for years at a price far above the ancial interests generally. It will be another market value, now proposes to re-open the support to the favor with which Canadian mints 'in creter to restore silver to its value | enterprises are now regarded in London. of twenty years ago, how absurd it is to and will not be without a beneficial effect take for granted that what the Sherman on the manner in which the new Dominion Act signally failed to do will be accomplished loan of \$ 5,000,000, will be received in the great London money market.

We published yesterday the traffic repations of the world close their mints to ceipts of the Canadian Pacific Railway for the week ending September 30th, amount. silver was already obviously losing its ing to \$764,000, showing the phenomenal former position as a precious metal. Ger. increase of \$255,000 over the receipts for many, rich in the 2200,000,000 of the the corresponding period in 1896, While French indemnity, demonstised silvar, so the receipts for last year were greater than as to make good her position in advance. | those for the preceding year, yet the Com-The Latin Union closed their mints to free pany's gross carnings in the period before coinage without loss of time. India should the recent general depression were larger p.m. have done the same simultaneously, instead | than in those years. But the receipts for last of waiting until the waste silver of the week exceeded those for any like period by world was passed for twenty years through the large sum of \$100,000, a most satis our mints. The whole problem is factory and significant fact. It is also not stated when it is said that silver stated that the current week's receipts are has fallen in value because the principal likely to show even a greater earning power. The fact must not, of course, be ignored that just now the movement of the crops, foresaw the certain consequences of an ex especially in Manitoba, is exceeding heavy and that traffic is an important factor in the exceptionally large business which the and is likely to recede in market value road is doing at the present time. But the indications are that the general It is quite true that gold and silver traffic is good and likely to steadily invalue from their being legalised as money. feature in the business of this great But they do not derive the larger part | transcontinenal road, and that is that the of their value from the mint stamp. The development of the country-especially in rupee owee fully three-fourths of its value the Central and Western portions of the to the fact of it being silver; and scarcely Dominion—is bringing into existence new Entrances:—Ica House Lane, Queen's a fourth to the mint mark. The value of industries and that the railway traffic which Road, and Duddell Street. the latter would disappear if it were applied | they will afford will not only be permanent to countless tons of motal at the demand but will steadily increase. There will be of reckless and well-nigh desperate specu- a larger volume of traffic; it will be 1969 lators in the United States. The regulation | both eastward and westward-a most imof the quantity of coin to be made in the | portant matter in railway economics-and mints is the rightful prerogative of the it will spread business over all sections of State, and should not be entrusted to the the system, so that we may anticipate that hands of aliens and unscrupulous rivals .- | there will soon be an end to the 'lean' parts of the line, which absorbed a considerableportion of the profits made on other portime it will not only afford a remunerative Attendant. local business, but furnish no inconsiderable amount of traffle for the other divisions of the system. With this change in the situation, it should be both practicable and judicious for the management to gradually reduce its rates and so further stimulate business. - Daily News' Advertiser.

Hongkong Tides.

The Tide Table given below has been compiled by the Nautical Almanac Office in London from the results of the analysis of observations taken by means of an automatio tide recording machine in the Water Police Basin at Taim Sha Tsui during the years 1887-8-9. The zero of the table is Low Water Or-

dinary Spring Tides, which has been found to be 2 feet below mean sea level. To obtain the depth of water on the tide gauge at the Victoria Naval Yard add 5 ft. 7 in., and on the gauge at Lamont Dock, Aberdeen, add 12 ft. 9 in. the height given in the table.
